Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Applicant seeking a loan	Secure a loan for property	Married with no co-applicant income	Self-employed with a good credit history	Optimistic about loan approval

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A male applicant seeking a loan.	Secure a loan for the property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.

Customer Problem Statement:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A comic creator with a story idea but no drawing skills.	Turn my story into an illustrated comic.	Hiring artists is costly and slow.	Traditional comic art needs skill, time and money.	Frustrated and discouraged.
PS-2	An educator creating comic-based lessons.	Keep the same characters in every panel.	AI panels show a different face each time.	Existing tools lack character consistency.	Annoyed and unsure about AI tools.
PS-3	A hobby writer sharing comics online.	Publish a polished comic for readers in many languages.	Placing panels and speech bubbles is manual work.	Tools do not automate layout or translation.	Overwhelmed, but hopeful.
