### Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| <b>Phase of Journey</b>                                                     | <b>Stage 1</b><br>Idea & Script Entry                                                                                                                           | <b>Stage 2</b><br>AI Comic Generation                                                                                                                           | <b>Stage 3</b><br>Review, Export & Share                                                                                                                               |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Actions</b><br><i>What does the customer do?</i>                         | <ul style="list-style-type: none"> <li>Signs up and opens the app</li> <li>Enters the story script</li> <li>Picks characters and art style</li> </ul>           | <ul style="list-style-type: none"> <li>Clicks Generate Comic</li> <li>Reviews panels and layout</li> <li>Edits dialogue, regenerates</li> </ul>                 | <ul style="list-style-type: none"> <li>Exports the comic (PDF/PNG)</li> <li>Shares it in the gallery</li> <li>Reads reader feedback</li> </ul>                         |
| <b>Touchpoint</b><br><i>What part of the service do they interact with?</i> | <ul style="list-style-type: none"> <li>Landing and sign-up page</li> <li>Story prompt editor</li> <li>Character and art-style picker</li> </ul>                 | <ul style="list-style-type: none"> <li>Generate button and AI engine</li> <li>Panel and speech-bubble editor</li> <li>Live preview screen</li> </ul>            | <ul style="list-style-type: none"> <li>Export and download option</li> <li>Public sharing gallery</li> <li>Language settings</li> </ul>                                |
| <b>Customer Thought</b><br><i>What is the customer thinking?</i>            | <ul style="list-style-type: none"> <li>"Will it understand my story?"</li> <li>"Is this easy with no drawing skills?"</li> <li>"Is it worth trying?"</li> </ul> | <ul style="list-style-type: none"> <li>"Do the characters look the same?"</li> <li>"Are the bubbles placed well?"</li> <li>"I can fix this quickly."</li> </ul> | <ul style="list-style-type: none"> <li>"This looks professional."</li> <li>"Can readers in other languages enjoy it?"</li> <li>"I will make another comic."</li> </ul> |
| <b>Customer Feeling</b><br><i>What is the customer feeling?</i>             | Hopeful, but anxious about having no drawing skills.                                                                                                            | Curious and a little impatient while the AI works.                                                                                                              | Delighted and proud of the finished comic.                                                                                                                             |

|                                                                |                                                                                                                                                                         |                                                                                                                                                                                 |                                                                                                                                                                      |
|----------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Process Ownership</b><br><i>Who is in the lead on this?</i> | Comic creator (user)                                                                                                                                                    | Comic Craft AI team (AI generation engine)                                                                                                                                      | Comic creator, using the Comic Craft AI export and sharing tools                                                                                                     |
| <b>Opportunities</b><br><i>How can we improve this stage?</i>  | <ul style="list-style-type: none"> <li>• Offer story templates and samples</li> <li>• Guided prompts for beginners</li> <li>• Free trial with a sample comic</li> </ul> | <ul style="list-style-type: none"> <li>• Keep characters consistent in all panels</li> <li>• Auto-place panels and bubbles</li> <li>• Quick previews with regenerate</li> </ul> | <ul style="list-style-type: none"> <li>• One-click export and sharing</li> <li>• Auto-translate the dialogue</li> <li>• Ratings and feedback for creators</li> </ul> |
